Honorable Mayor,

Thank you for the opportunity to conduct business with the Municipal Government of Taytay, Rizal. We are pleased to submit our Unsolicited Proposal for the Development and Installation of an End-to-End System for the Processing and Issuance of the following documents: **Health Clearance, Work Permit and Business Permit**. This project aims to provide a document issuance system capable of issuing 100,000 to 500,000 documents annually.

We are likewise proposing the creation of a **ONE-STOP APPLICATION CENTER (OSAC)** that would house the three issuing offices. This would provide greater convenience to applicants who would otherwise have to transfer from one location center to another. Additionally, we are lowering our price proposal for the full computerization of the Health Clearance, Work Permit and Business Permit. This would give tremendous savings and relieve the applicants of the burden and expense of having to fill out numerous application forms with corresponding photos.

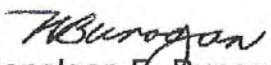

Given the high value of the afore-stated certificates and the prevalence of fraudulent documents, our goal is two-fold: To provide tamper proof documents and integrate a unique and innovative mechanism for its instant verification via any internet enabled device.

Our company has developed a system which allows for the efficient data collection, production and management of the certificates and provide a risk-managed and flexible solution that can be upgraded. Hence, the system can be sized in terms of storage capacity, to operate for a period of 2-10 years from the date of the final acceptance of the system. We shall provide the necessary software, hardware, peripherals and consumables at NO COST TO THE MUNICIPALITY OF TAYTAY, RIZAL. Full maintenance and support will be included for the duration of the project. A customized training program to ensure that the City/Municipality obtains the maximum potential from the Issuance System shall also be provided by our company.

We have a proven track record, technical and financial capability to complete the project within 21 days from receipt of notice to proceed. Our proposal is valid for 90 days.

We are confident that our homegrown system will greatly improve the delivery of services to the residents and workers in Taytay, Rizal. Should your desire or require any clarification, please do not hesitate to contact the undersigned at 0917-1375735 or at epi.layout@gmail.com.

Respectfully yours,

Napoleon E. Bunagan
VP-Operations

Unsolicited Proposal:
Development and Installation of a
One-Stop Application Center for
Health Clearance, Sanitary Permit,
Work Permit and Business Permit
for the Municipal Government of
Taytay, Rizal
